NEW

At Sparsh Hospice, Hyderabad, they provide great humanitarian service to people when they are most vulnerable. My family and I remain deeply indebted to them for the compassion shown, the advice given, and the care provided when my mother was admitted. The staff and doctors are very competent, motivated, and well-meaning. May God bless those who run such institutions and those who selflessly serve here.

There is no place like home, especially when navigating life's final journey. It is a sanctuary of comfort and connection where most of us wish to spend our remaining days, surrounded by those we love. Driven by this vision, Sparsh launched its home-care services in 2016. Supported by the SBI Foundation, our dedicated fleet of six vans now reaches over 80 new patients every month. We are honored to bring professional, compassionate care directly to the doorstep, ensuring peace and dignity in the environment where patients feel most at ease.

AWARENESS

In India, palliative care is still mistaken for end-of-life surrender, leading to poor awareness and delayed access. After decades of fragmented efforts, the urgent need is systemic integration into national health policy to ensure universal reach.
